

<MBProgressHUDDelegate>

```
classDiagram
    class HUDDemoViewController
    class RootViewController
    class MBProgressHUDDelegate
    HUDDemoViewController --|> MBProgressHUDDelegate
```

The diagram illustrates a class hierarchy. At the top is a box labeled '<MBProgressHUDDelegate>'. Below it are two boxes: 'HudDemoViewController' on the left and 'RootViewController' on the right. A horizontal line connects the top of these two boxes, with a vertical arrow pointing upwards from the center of this line to the bottom of the '<MBProgressHUDDelegate>' box, indicating that both 'HudDemoViewController' and 'RootViewController' inherit from '<MBProgressHUDDelegate>'.

HudDemoViewController

RootViewController
